

SelcoPlus

A performance moist blend, nutritionally rich in energy and protein - ideal for driving intakes.

- A great addition which helps balance a variety of forage mixes.
- Unique bespoke preservation for enhanced keeping quality.
- Manufactured to order all year round.

SelcoPlus

Key Features Key Advantages

Enhances palatability

SelcoPlus is a manufacturing co-product and includes wheat syrup, wheatfeed and a bespoke acid preservative. It's fresh aroma, sugar level and keeping quality ensure the palatability which helps drive intakes.

Supply and traceability

SelcoPlus is manufactured to order. Full ingredient traceability and consistency of supply is guaranteed throughout the year.

Drives intakes

Nutrient rich, SelcoPlus has a proven track record of enhancing rations to produce more milk production, better daily liveweight gains and balancing lower energy forages.

Flexibility

Suitable for a variety of feeding systems and improves ration dry matter intakes.

Easy to store

With dry matter at 46% means it can be ensiled or stacked easily on farm. The bespoke preservative ensures keeping quality and it's storage for up to 6 weeks.

Typical Nutrient Value (DM basis)

Dry Matter 46% Crude Protein 19.0% Oil 6.0%
Starch 21.0% Sugar 9.5% NDF 20.0%
MER 13.0MJ/kg DM & MELK (net energy) 1171/kg DM

Feeding Guide

Introduce SelcoPlus gradually over 7-14 days ensuring that sufficient long fibre is present in the diet. One of our fully qualified nutritionists will happily assist you in getting the most out of SelcoPlus in your diet.
